RE: Participation in the IDMS/R Data Base Advisory Group

Effective 1/4/87, I have accepted a new position in the Health Care Financing Administration. The responsibilities of this assignment are quite different from those of my previous position and will preclude any future participation in the IDMS/R Data Base Advisory Group.

The Bureau of Data Management and Strategy (BDMS) remains convinced that the founding principals of the Advisory Group would aid in achieving the objectives of BDMS and would like to name Joseph Kosojet as its representative. Any questions you may have, as well as future correspondence, should be addressed to him. His phone number and location can be found on the attached.

Sincerely,

A handwritten signature in cursive script, reading "Louis A. Hogan".
Louis A. Hogan

Discussion Topics Suggested by IDMS/R Advisory Group Members

1. IDMS architect product
2. Cullinet's ideas on executive workstations and what they see as the role of the special interest group.
3. Code generators
4. Productivity tools
5. Current status of Cullinet to place its products on Departmental Computers (mini-computers)
6. How define corporate strategy

Suggested Topics for IDMS/R Meeting - 4 March 1987

1. IDMS architect product (Cullinet) (Sandquist)
2. Cullinet's ideas on executive workstations and what they see as the role of the special interest group. (Sandquist)
3. Code generators (Willets) (James Golden)
4. Productivity tools (Golden)
5. Current status of Cullinet to place its products on Departmental Computers (mini-computers) (Joseph Leo)
6. How define corporate strategy

STAT

Directions from L'Enfant Plaza metro stop to OCC:

At top of escalator will see three doors--walk through the door that has "L'Enfant Promenade-shops" over it. Go straight until see cookie shop on right hand side. Turn right there and continue straight to fotomat camera store on left side. Just past that will see a stairway and at top of stairs is an OCC sign. Take the elevator there to third floor--3A conference room.
